1. Daisy-chain and connect two Boost+ units together to charge 32 USB devices from a single IEC power cord

Enables you to sync (data transfer) and charge the device at an enhanced rate that other USB hubs cannot, most UBS hubs charge devices at a trickle rate while syncing. Our hubs are built differently and offer the valuable feature of being able to charge devices while they are in sync mode

4.

2. Designed Specifically with portability in mind

5. Daisy-chain and connect two Boost+ units together to charge 32 USB devices from a single IEC power cord

3. Charges 16 USB devices – tablets, mobile phones, robotics, POS, e-readers, PDAs, scanners
